

SECTION I- Chemical Product and Company Identification

Product Identifier: **POWER UP FOOD
GRADE GREASE SYN**

Manufacturer: WYS Manufacturing Ltd.
Bay 7 & 8, 4216 – 54th Ave. SE
Calgary, Alberta T2C 2E3
Canada

Supplier: Maryn International Ltd.
Bay 5, 4216 – 54th Ave. SE
Calgary, Alberta T2C 2E3
Canada

Product use: Food Machinery Lubricating Grease

Emergency Phone Number:

CANUTEC – 24 hr Emergency No. 1-613-996-6666

Business Hour Number 1-403-252-2239
(Monday through Friday 8:00am to 4:30pm MST)

SECTION II Composition/ Information on Ingredients

Hazardous Ingredients	Concentration %	C.A.S. #	Exposure limit	LD ₅₀ (Species/Route)	LC ₅₀ (Species/Route)
Proprietary Mixture					

SECTION III Hazards Identification

Emergency Overview

No hazards under normal conditions of use.

Potential Health Effects

Ingestion

Acute effects

-No significant hazard. Minimal toxicity. Ingestion of large amounts may cause intestinal blockage.

Inhalation

Acute effects

- No significant inhalation hazard expected under normal conditions of use. At elevated temperatures, vapours may form that may irritate respiratory tract.

Chronic effects

- Prolonged or repeated inhalation of vapours may cause irritation of the respiratory tract.

Skin Contact

Acute effects

-Low toxicity and irritancy.

Chronic effects

-Prolonged and / or repeated contact may irritate the skin.

Eye Contact

Acute effects

- May cause irritation

SECTION IV First Aid Measures

Ingestion

Obtain medical attention immediately. Do not induce vomiting. Not expected to be toxic by ingestion.

Skin

Wash skin with soap and water. If redness or irritation occurs, seek medical attention.

Inhalation

If excessive fumes at elevated temperature, remove victim to fresh air. If no relief is obtained, obtain medical attention.

Eye Contact

Flush with clean tepid water for 15 minutes keeping eyelids open. If irritation persists, obtain medical attention immediately.

Notes to Physician

Not available.

SECTION V Fire-Fighting Measures

Flammability

Not controlled within WHMIS.

Means of Extinction

Carbon dioxide foam, dry chemicals.

Keep containers cool with water spray. When fighting fire, wear full protective clothing, including NIOSH approved self-contained breathing apparatus. Avoid spreading with water flooding.

Flash Point (ASTM D92)

180°C (350°F)

Upper Flammability Limits

Not Determined.

Lower Flammability Limits

Not Determined.

Auto Ignition Temperature	Not Determined
Hazardous Combustion Products	Oxides of carbon, sulfur and dense smoke
Fire and Explosion Hazards	Low fire hazard. This product must be heated before ignition will occur.
Sensitivity to Static Discharge	None at normal temperatures below flash point. Do not cut, weld, or pressurize empty container. Container may explode in heat of fire.

SECTION VI Accidental Release Measures

Personal Protection	Wear suitable protective equipment. Eliminate sources and or potential sources of ignition.
Environmental Precautions	Product has very low solubility in water. Do not flush to sewers, streams or other bodies of water. For disposal, see Section XIII.
Methods for cleaning up	Absorb on inert material such as sand, earth, vermiculite. Sweep up and collect in a suitable container for disposal. Observe government regulations.
Large spills	Stop leak if without risk. Dike to contain spill. Pump excess material into suitable container (metal drums, metal tanks, or such).

SECTION VII Handling and Storage

Handling	Avoid excess heat, formation of oil mist, breathing vapours and mist from hot oil, and prolonged or repeated contact with skin.
Storage	Store at ambient temperature. Keep container tightly closed.

SECTION VIII Exposure Controls / Personal Protection

Exposure Limits

Component	Value	Type	Remark
Mineral Oil Mist	5 mg/m ³ 10 mg/m ³	TWA (mist) ACGIH STEL(mist) ACGIH	If used in a way that generates a mist, observe the limits for mineral oil mist

Engineering Controls	For normal application, special ventilation is not necessary. If user's operation generates mist, use ventilation to keep exposure to
-----------------------------	---

airborne contaminants below exposure limits. Make up air should always be supplied to balance air removed by exhaust ventilation.

Respiratory Protection	None required in normal use. Use approved respirator with dual organic vapor / mist and particulate cartridge if vapor concentration exceeds permissible exposure limit. Use Self-Contained Breathing Apparatus in high vapour concentrations.
Eye Protection	Use chemical splash goggles if risk of splashing present.
Skin Protection	Use rubber or plastic apron.
Hand Protection	Use oil resistant gloves.

SECTION IX Physical and Chemical Properties

Physical State:	Semi-solid
Odour:	Mild petroleum odour
Appearance:	Smooth white grease
Odour Threshold:	Not established
Specific Gravity:	0.95-1.05 (@25°C / 77°F)
Vapour Pressure:	<0.0008hPa (0.00 mm Hg) at 20°C
Vapor Density:	Not available
Evaporation Rate:	Not applicable
Boiling Point:	Not applicable
Pour Point:	Not applicable
Solubility in Water:	Negligible
pH:	Not applicable
Partitioning Coefficient:	Not available

SECTION X Stability and Reactivity

Chemical Stability:	Stable
Incompatibility:	Avoid contact with oxidizing agents, reducing agents, and ignition source.
Reactivity:	No reactivity

Polymerization: Will not occur

Decomposition Products: Oxides of carbon and dense smoke.

SECTION XI Toxicological Information

Irritancy / Route of Entry:

Skin Contact Frequent or prolonged contact may irritate the skin and cause a skin rash.

Skin Absorption No entry into body through skin. Prolonged contact may cause mild irritation.

Eye Contact Slight irritation to eyes, but will not injure eye tissue.

Inhalation No inhalation dangers at room temperature as there are no vapours. If the product is misted, high concentrations of vapours and/or mist may cause irritation, experienced as nasal discomfort and discharge.

Ingestion No significant hazard. Minimal toxicity. Ingestion of large amounts may cause intestinal blockage.

Sensitization: Repeated or prolonged contact may cause sensitization in some individuals.

Carcinogenicity: This product contains material that has not been listed as a carcinogen or potential carcinogen by either the National Toxicology Program, International Agency for Research on Cancer, or the Occupational Safety and Health Administration.

Reproductive Toxicity: No information is available and no adverse effects are anticipated.

Teratogenicity: No information is available and no adverse effects are anticipated.

Mutagenicity: No information is available and no adverse effects are anticipated.

Component Toxicological information:

Chemical Name	Oral LD50 Rat	Dermal LD50 Rabbit	Inhalation LC50 Rat
Petroleum oil	>5000 mg/kg	>2000 mg/kg	>2500 mg/m ³ /4h

SECTION XII Ecological information

Environmental Fate: No specific environmental fate data is available. This product is not expected to be readily biodegradable.

Environmental Effects: No specific toxicity or environmental effect data is available.

SECTION XIII Disposal Consideration

RCRA 40 CFR 261 Classification

Not listed

US EPA Waste Number / Classification

Not available

Waste Disposal

Dispose of waste material in compliance with all federal, state, provincial and local regulations. Incinerate in a furnace or bury in an approved landfill where permitted under appropriate federal, provincial and local regulations.

SECTION XIV Transport Information

Department of Transport: Not regulated under DOT

TDG – Canada Not regulated under TDG.

DOT/TDG Proper Shipping Name: None

DOT/TDG Hazard Class: None

UN Number: None

Packing Group: None

DOT/TDG Labels: **Primary:** None required **Subsidiary:** None required

DOT/TDG Placards: None required

SECTION XV Regulatory Information

CPR Compliance: This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all of the information required by those regulations.

OSHA Hazard Communication Standards 29CFR 1910.1200: This product is not known to contain any of the carcinogens required to be listed under OSHA Hazards Communication Standards 29 CFR 1910.1200.

WHMIS Classification: Not a controlled product under WHMIS.

CERCLA: Not listed on CERCLA (40CFR 302.4). If this product is accidentally spilled, it is not subject to special reporting under requirements of the Comprehensive Environmental Response and Liability Act. We recommend you contact local authorities to determine if there may be other local reporting requirements.

SARA Title III Section 311/312: Under the provisions of Title III, Section 311/312 of the Superfund Amendments and Reauthorization Act, this product is classified into the following hazard category: **NONE**.

SARA Title III Section 313: This product does not contain more than 1 % of any of the chemical substances listed under SARA Section 313.

RCRA: Not listed on the **RCRA** (40 CFR 261.33) for hazardous waste.

NPRI: Not listed in the **NPRI** under Canadian EPA.

Chemical Inventory

Canada: The ingredients of this product are on the DSL.

United States: The ingredients of this product are on the TSCA

SECTION XVI Other Information

HMIS Information

Degree of Hazard	HMIS Rating
4= Severe	Health 0
3= Serious	Flammability 1
2= Moderate	Reactivity 0
1= Slight	
0= Minimal	

Revision Information
